January 28, 2005 10 am	California Public Utilities Commission 505 Van Ness Avenue, Hearing Room A (Corner of Van Ness Avenue and McAllister Street) San Francisco
---------------------------	--

At the Pre-Hearing Conference held on January 14, 2005, the assigned Administrative Law Judge, ALJ McKenzie, directed that a workshop be held on January 28 to explore and resolve issues raised in protests to the utilities' applications. The issues include, but are not limited to: (1) the extent to which reliability may be impaired as a result of increasing load on utility systems in the summer of 2005, and possible means of mitigating those concerns; (2) whether the utilities' proposed incentives contribute to margin, or instead negatively impact other ratepayers; and (3) whether the increased capital costs and

operation and maintenance costs associated with the proposals for additional line extension incentives will, in the future, have to be borne by other ratepayers. At the workshop, participants will have the opportunity to identify positions, respond to opposing proposals, and propose remedies or approaches to develop workable incentives with positive gains for the other ratepayers. To submit additional agenda items, other than those mentioned at the January 14 PHC or for further information, contact Kathryn Auriemma of the CPUC's Energy Division by email at kdw@cpuc.ca.gov or by phone at (415) 703-2072.

In Decision (D.) 03-07-028, as modified by D03-08-076, D04-11-014, and D04-12-059, the Commission imposed a Cost Responsibility Surcharge (CRS) on Municipal Departing Load (MDL) within the service territories of Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas & Electric Company, but deferred issues relating to the billing and collection of the MDL CRS for further consideration. Public Meeting Notice - Climate Change En Banc

<i>Climate Change and the IOUs</i> <i>February 23, 2005</i> <i>9 am – 3:30 pm</i>	<i>CPUC Auditorium</i> <i>505 Van Ness Avenue</i> <i>San Francisco</i>
---	--

The CPUC will hold a public meeting, chaired by President Peevey, on the issue of climate change. The purpose of this meeting will be to move "beyond energy procurement" and to begin to identify best practices for all CPUC regulated companies (electric, natural gas, telecommunications, water, and transportation). Opportunities to reduce greenhouse gas emissions related to business operations include fleet vehicle efficiency, building efficiencies, and overall reduction of energy consumption. The U.S. is the world's largest greenhouse gas emitter and is responsible for approximately 25% of the world's emissions. California policymakers and businesses have the opportunity to proactively address this issue, to demonstrate effective leadership, and to make a significant contribution to emissions reduction. Invited presenters include representatives from the academic, research, business, insurance, shareholder activist, and state government organizations. Business and industry leaders will also be asked to respond to a recent CPUC summary paper on the subject. In addition, the IOUs should be prepared to present their current and anticipated efforts to address climate change. Information about the meeting, including a link to the discussion paper and the agenda are posted at www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting and can also be found on the CPUC's homepage at www.cpuc.ca.gov. All utilities are asked to RSVP to confirm their attendance and to discuss their presentations. To RSVP, and for further information, please contact Lainie Motamedi, CPUC Division of Strategic Planning, at (415) 703-1764 or lm@cpuc.ca.gov.
